

PARKY®

THE NEXT GENERATION OF WOOD FLOORING

A wooden floor is your invitation to enjoy every day to the fullest. It can be a creative stage for our little ones or the foundation of daily office productivity. The use of wood in your interior brings warmth and creates a welcoming, friendly atmosphere as soon as you step into the room.

Wood needs to be cherished. It's the best that nature can offer us: authentic, versatile, full of character... That's why we choose to use our wonderful wood very sparingly. With just a thin layer of wood, our pioneering floors give nature the room to breathe while giving you an interior that exudes quality.

Sustainable by nature, produced with innovative technology, finished with a natural look and feel, protected by the powerful Woodshield, and stronger than traditional parquet: our wooden floors are the future.

Meet Parky, wood flooring's finest.

STEP INTO
A NEW ERA OF
WOODEN FLOORS
WITH PARKY

WOOD FLOORING'S FINEST

Choosing Parky means choosing to enjoy the authentic feel of wood. But does that mean it's bad for nature? Not at all! Parky consciously makes sparing use of wooden raw materials from well-managed forests and is committed to using sustainable production methods. As a result, our fine-quality wooden top layer uses 25x less wood than required for the production of solid parquet.

Our wooden top layer is reinforced with a high-grade HDF core to create a high-quality, strong wooden floor. Our Woodshield guarantees maximum protection against water, scratches and dents, without compromising the feeling of wood. The carefully designed composition and finish of every Parky plank also means easy installation, lasting quality and an accessible price.

Parky is setting new standards in the wood flooring industry. Experience the benefits of a Parky floor while honouring both nature and your interior!

	THE POWER OF REAL WOOD	p. 10
	RESILIENT AGAINST WATER, SCRATCHES AND DENTS	p. 12
	A SUSTAINABLE CHOICE	p. 14
	EASY TO INSTALL	p. 16

01

THE POWER OF REAL WOOD

When choosing Parky, you're seeing and feeling real wood. It's that love for wood that becomes the cornerstone for **rooms with warmth and character**. Our Parky range features **carefully selected wood species**, displayed at their best as the top layer of your floor. **No two wooden planks are identical**, in the same way every single interior has its own identity.

To strengthen the unique feel of wood, the floor is **brushed** and then treated with an **innovative matt lacquer** that respects the wood grain's structure. This retains and protects the wood's appearance and soul, with all its characteristic details.

With Parky, you're guaranteed the **authentic charm, natural warmth and powerful performance of wooden floors**.

02

RESILIENT AGAINST WATER, SCRATCHES & DENTS

One of the most important Parky features is our revolutionary **Woodshield**. This ultra-strong, invisible technology is the **ultimate protection** for your wooden floors.

Woodshield comprises **eight strong layers of lacquer**, which make our Parky floors highly wear-resistant and scratchproof. This specially developed, matt lacquer follows the grain of our brushed floors very closely, resulting in a **superb appearance**. No need to compromise on the natural charm of wood with these exceptionally strong floors.

But Woodshield protects more than just the wood grain. It also protects the V-grooves between the planks, creating a **waterproof** surface that can withstand water for at least **24 hours**. In other words, your floor is fully protected against water, dirt and dust, right into the deepest corners.

Did you happen to drop a vase, glass or something else? No need to panic: Woodshield **also protects Parky floors against dents**. The reinforced finish, the real wood top layer and robust high-density fibreboard (HDF) at the core of each plank create a **rock solid trio**.

The carefully designed structure and the reinforced protection for our Parky floors ensure **long-term quality, carefree use and low maintenance**, even when subjected to intensive or commercial use (class 33).

Parky: a worry-free wooden floor, for every moment of the day.

Various layers are combined to create a uniquely strong wooden floor:

WOODSHIELD ¹

The Parky Woodshield lives up to its name: it creates an invisible and rock-solid shield for your wooden floor.

WOOD ²

Our carefully selected wood species are cut into **thin layers** and give our Parky floors their unique warmth and character.

HDF BOARD ³

The core of a Parky floor is a **high-density fibreboard** made from 100% recovered wood — and is stronger than wood and better at absorbing impacts, resulting in a durable, high-quality floor.

BACKING LAYER ⁴

Below the high-density fibreboard, a robust wooden backing layer ensures **equal stability**.

CORK LAYER ⁵

The Deluxe+ collection integrates an environmentally-friendly cork underlay, with an **easy installation** and a **softer footfall sound** as a result.

03

A SUSTAINABLE CHOICE

At Parky, we hold a deep respect for nature and take a conscientious approach when using raw materials. That's why you won't find any solid wood planks in our collections. Parky floors are designed with care, only using a **thin wood top layer**. This means **25x less wood is required** compared to the production of solid parquet. Our wood originates from well-managed forests and is PEFC-certified. Combined with an HDF core made from 100% recovered wood, this results in a sustainable product that is much stronger and more stable than traditional solid wood parquet.

Furthermore, our Parky floors are finished with exclusively water-based wood stains, adhesives with a minimum of volatile organic compounds, and lacquer with a low concentration of solvents. The result is **an excellent air quality** with all Parky floors holding an **A+ quality label**.

We generate our own **renewable energy** which supplies 25% of our needs for the Parky production process and are working towards achieving a **positive carbon footprint** by 2040. It is our ambition to give back more to the earth than to take from it.

CHARACTER WOODS

FROZEN WALNUT

SMOKED WALNUT

CINNAMON TRIBA

CHOOSE YOUR

WOOD GRADING

Have you chosen your favourite wood species and colour? The next step is selecting the character of your wood.

Take a look at our Premium planks for the purest wood character. These planks are exceptionally pure, with all the best that nature has to offer.

Do you prefer a more outspoken, authentic style? Our rustic planks feature large and small knots, giving you a floor full of character.

CHOOSE YOUR PLANK SIZE

The size of a room determines the dimensions of the required planks. Choose short, narrow planks for a small room. Got more space? Wider, longer planks will be the most effective. Remember to think about the orientation of the planks when installing them. Follow the direction of the light or install them along the length of the room to make it appear larger.

READY FOR YOUR
OWN PARKY?
GET STARTED!

INSTALL YOUR PARKY

Installing a Parky floor is child's play. Good preparation is half the battle, which is why we recommend starting with a solid base. As a result, the installation will happen very smoothly. All Parky floors use the convenient Uniclic® or Unifit X® systems. The fold-down Unifit X® option can save you as much as 30% in installation time!

Enjoy convenience and the warmth of real wood all in one with Parky. Visit par-ky.com/en/downloads for detailed instructions on how to install your floor.

UNDERLAYS

SILENT UNDERLAY | 2 mm thick, 20 m²/roll

- + Premium underlay
- + Maximum sound absorption and contact sound insulation (minimum 20 dB)
- + Corrects minor irregularities in the subfloor
- + Integrated moisture barrier

BASIC UNDERLAY | 2 mm thick, 20 m²/roll

- + Budget-friendly, high-quality underlay
- + Comfortable sound absorption
- + Corrects minor irregularities in the subfloor
- + Integrated moisture barrier

DAMP-PROOF FOIL | 150 micron, 25 m²/pack

- + Only required for Parky floors with an integrated cork layer (DELUXE+)
- + Provides protection against moisture

All underlays are compatible with underfloor heating and cooling.

WATERPROOF TAPE

It's essential to protect your floor from rising damp. We recommend using Parky's tried and tested waterproof tape to stick the underlays together. That way, the underside of your floor remains fully protected.

INSTALLATION KIT

Our installation kit includes all the tools you need to install your floor quickly, without causing any damage: spacers to respect the expansion joints, a pull bar and a tapping block.

SKIRTINGS

WOOD SKIRTING

- + The icing on the cake: a water-resistant wood skirting matching your chosen wood type and colour.
- + Dimensions: 2150 x 60 x 12 mm
84.6 x 2.4 x 15/32 inch

PAINTABLE SKIRTING

- + Choose white skirting for a sleek modern look, or paint them in the same colour as your walls.
- + Dimensions: 2150 x 69 x 12 mm
84.6 x 2.7 x 1/2 inch

PROFILES

WOOD PROFILE

This practical 3-in-1 profile is available in all Parky colours.

Particularly useful as:

- + ⁰¹ **End profile** (seamless horizontal finish)
- + ⁰² **Reducer profile** (bridging a height difference)
- + ⁰³ **T-profile** (expansion profile)
- + Dimensions: 2150 x 48 x 13 mm
84-5/8 x 1 7/8 x 33/64 inch

Parky is ready for your daily adventures and to give the whole family peace of mind.

KEEP YOUR PARKY

IN TOP CONDITION

Want to safeguard Parky's sustainable soul?
Regular maintenance will improve its lifespan
and protect the appearance of your floor.

MAINTENANCE

PARKY CLEANER

Cleans your floor without damaging the lacquer. Our Parky Cleaner has been specially developed to remove dirt and protect the wood. Dilute the cleaner with water and clean the floor with a damp cloth.

REPAIRS

Parky floors are very durable — and well-protected thanks to our Woodshield. Accidents happen, however! If your floor gets damaged, our products can help restore it.

REPAIR PEN

Easily repair minor scratches. The box contains one colour pen and one lacquer pen. These help you conceal the scratches and restore your floor's protection for that particular spot.

REPAIR WAX

Did your floor get a dent that damaged the lacquer and the wood below it? Our Repair Wax fixes the damage and protects your floor from any invasive moisture. It includes seven wax blocks, a wax carving pen and a spatula.

Did one of your floorboards happen to suffer significant damage? Don't worry! You can easily replace a single plank thanks to our handy click system.

GIVE YOUR INTERIOR
A LITTLE EXTRA
CHARACTER
