wineo 1500

Powering your projects.
Protecting our nature.

wineo PURLINE® is a high-quality polyurethane floor covering that impresses with its outstanding performance.
It combines sustainable ingredients with durable resistance.
Thanks to its natural and authentic designs, the resilient floor covering also offers maximum design freedom –
the ideal solution for demanding contract areas that require both functionality, sustainability and style.
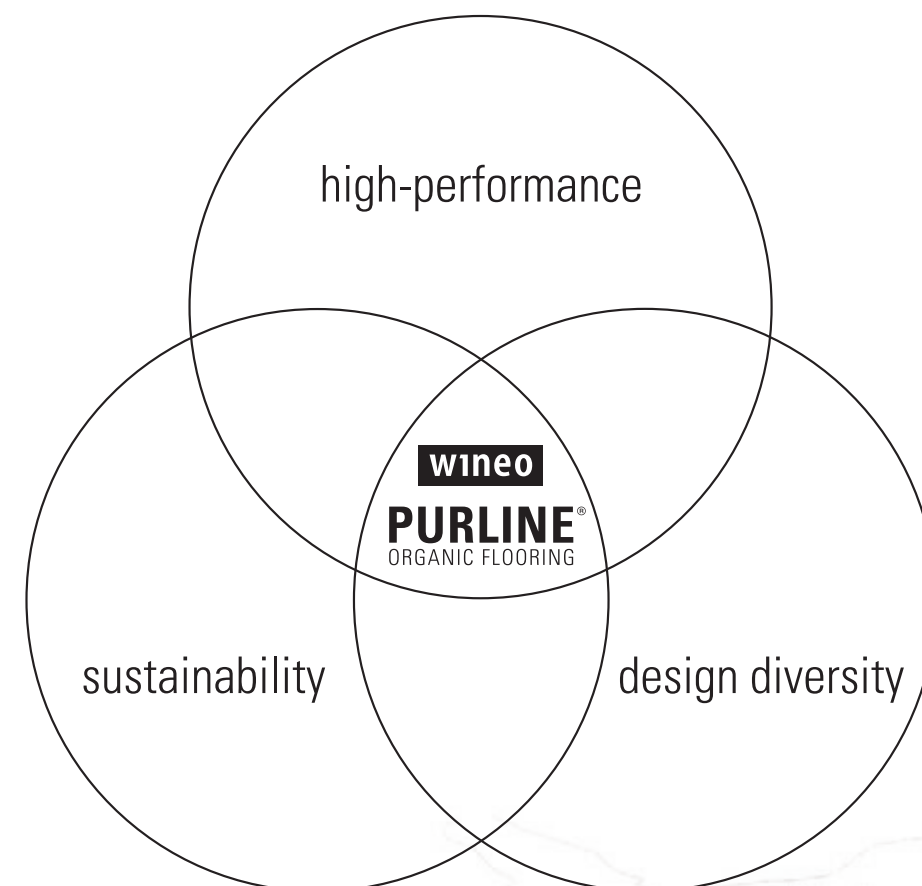

high-performance
PURLINE® wineo 1500 draws its strength from the best components
of nature and combines them to create a sustainable subfloor –
so hard-wearing, durable and resilient that it retains its exceptional
quality and strength for many years.

design diversity
PURLINE® wineo 1500 impresses with a wide colour spectrum
of authentic designs. This great variety opens up countless
possibilities for creative room concepts and fulfils
the desire for individuality.

sustainability
Developed with the utmost care and consideration for nature,
PURLINE® wineo 1500 is based on the best natural ingredients,
such as vegetable oils and mineral components. This makes it
an extremely healthy and sustainable floor covering.

high-performance

wineo
PURLINE®
ORGANIC FLOORING

sustainability

design diversity

high-performance

Durable for heavy-duty use
In addition to excellent residual indentation behaviour of ~0.10 mm
(according to EN ISO 24343 1), PURLINE® wineo 1500 scores with outstanding resilience.

Good rollability
Even heavy luggage, shopping and serving trolleys as well as hospital
and care beds can be moved easily.

Suitable for high humidity areas
PURLINE® wineo 1500 perfectly suitable for high humidity rooms
such as the kitchen or bathroom.

Outstanding UV resistance
Compared to other floors in its class, PURLINE® wineo 1500
has a very high lightfastness ≥7.

Particularly temperature-resistant
PURLINE® wineo 1500 can also withstand the effects of high temperatures,
e. g. changes in the room climate.

High Comfort
PURLINE® wineo 1500 is kind to joints, warm to the feet, with excellent walking
and standing support. Installed on underfloor heating, the design flooring
conveys an extra sense of cosy warmth.

Safe in case of fire
PURLINE® wineo 1500 is flame-retardant and fire-toxicologically harmless.
The low smoke development ensures that escape routes are more visible in the event of a fire.

Coating free
No initial maintenance is required for PURLINE® wineo 1500.
The floor covering does not need to be maintained during its entire service life either.

Quite
The low noise level creates a quiet environment that can have a
positive effect on mental health.

Low-reflection
Thanks to a low degree of reflection, PURLINE® wineo 1500
creates a calm surface effect.

design diversity

Thanks to a wide range of decors and colours,
PURLINE® wineo 1500 offers the right design for every area.

From natural to creative - and a wide range of formats
and colours – a wide variety of design concepts
and wishes can be realised.

sustainability

Harmless to health

PURLINE® wineo 1500 is REACH-compliant and free from PVC, phthalates, plasticisers and halogens.

Good indoor air quality

PURLINE® wineo 1500 does not release any harmful substances into the room air and is without the addition of chlorine, plasticisers or solvents.

Odour neutral

Without the addition of chlorine or solvents, it does not develop any odours – either during installation or use.

Quiet

The low noise level creates a quiet environment, which can have a positive effect on well-being.

GOOD TO KNOW!

The basic principle of the Cradle to Cradle® philosophy is convincing and points the way for the future. The international certificate differs significantly from other environmental labels. It is awarded exclusively for a proven overall sustainability balance sheet, in accordance with the strictest criteria and in-depth testing. The entire product life cycle is considered, as are its global effects. Cradle to Cradle® certification makes a positive contribution to building certification in accordance with LEED, BREEAM, DGNB and WELL.

CERTIFIED

**You can find our
sustainability report here:**
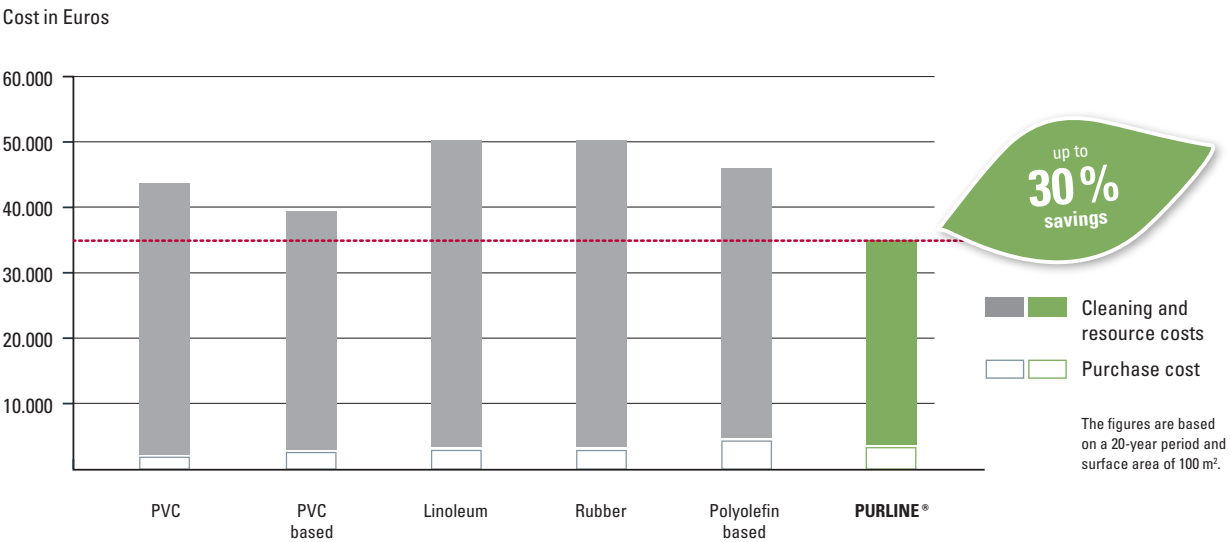

Operating costs at a glance

Durable and easy to clean

Conventional cleaners can be used without any problems:
- the closed surface makes cleaning particularly easy
- additional polishing or maintenance is not necessary
- all surface disinfectants can be used
- various tests prove effective disinfectability
- contrast agents commonly used in hospitals do not discolour
  PURLINE © floor coverings
- no marks left by furniture after a short regeneration period
- no visible wear due to mechanical stress
- extremely high resistance to sunlight

Demonstrably economical

The PFIFF Institute confirms a lifetime cost saving of 30 % on average
compared to all standard floor coverings on the market.

Skirting boards | External corners | Weld rods

Particularly in sensitive areas such as healthcare, in which maximum cleanliness and hygiene are crucial, skirting boards and external corners are indispensable. They connect the wall and the floor perfectly, thereby creating a particularly neat and absolutely impermeable final sealing.

Our prefabricated skirting boards and external corners for wineo PURLINE® organic flooring are available in every design promoted via the collections and are always manufactured for you on an order basis. The associated PURLINE® fusewires for seamless welding, are also available for every design.

Detailed information can be found in our accessories brochure.

Environmental certifications

Cradle to Cradle®
The Cradle to Cradle® certification confirms the utilisation of environmentally safe, healthy and reusable materials (technical reutilisation) and the use of solar power or other regenerative sources of energy, together with responsible water stewardship and strategies adopted by a company to embrace its responsibility to society. ✓

Blue Angel (Blauer Engel)
www.blauer-engel.de/uz120
www.blauer-engel.de/uz156
www.blauer-engel.de/uz176
The "Blue Angel" guarantees that our products and services fulfil high requirements placed on environmental, health and usage properties. Criteria are complied for each product group, which are checked every three to four years by the Federal Environment Agency. ✓

eco-INSTITUT-label
The eco-INSTITUT label confirms that a product complies with certain environmentally friendly and health standards. The label signals to consumers that the certified product is environmentally friendly and has been tested for harmful substances, which promotes transparency and trust with regard to sustainability and health aspects. ✓

Austrian eco-label (Österreichisches Umweltzeichen)
The "Österreichisches Umweltzeichen" (Austrian eco-label) assesses products from quality, health-related and ecological standpoints. Basically, products can only be certified if they are harmless health-wise. The fulfilment of the criteria is checked every four years. ✓

Greenguard
The Greenguard certificate ensures that a product fullfils the strictest and most comprehensive requirements for emissions of Volatile Organic Compounds (VOCs) into the air. ✓

Declare
Voluntary self-disclosure programme aimed at transforming the building materials industry into a healthier and more environmentally friendly product through transparency of ingredients used. By participating in Declare, manufacturers are obligated to disclose all ingredients. ✓

M1
Just like the "Blue Angel" quality mark in Germany, the M1 seal in the Finnish market labels our products as environmentally friendly, health-friendly and consumer-friendly. The focus is on emissions of Volatile Organic Compounds (VOCs). ✓

A+
Just like the "Blue Angel" in Germany, the A+ seal identifies our products as ecological, healthy and user-friendly in the french market. ✓

TFI-TÜV PROFiCERT PREMIUM for Multi-Layer
The TFI (Textiles & Flooring Institute GmbH) and the TÜV Hessen evaluate products based on qualitative, health and ecological principals. Fundamentally, only products that are considered harmless to health can be certified. ✓

Environmental certifications

KFB
Award from the competence centre for dynamic processes at Bielefeld University of Applied Sciences (FH). The flooring product Purline has passed the dynamic standard examination of rolling behaviour in accordance with the KFB roadmap. ✓

eco-bau Switzerland (eco-bau Schweiz)
Eco-Bau assesses the ecological aspects of building materials and services. It encompasses all of the significant environmental effects during the entire lifespan of the materials. The assessment is made on the basis of the following criteria: conservation of natural resources, energy for producing materials, solvent emissions, presence of environmentally and health-damaging components, emission of heavy metals and other damaging substances. ✓

FloorScore®
With SCS Global Services' FloorScore® certificate program manufacturers of floor coverings can assess the conformity of their products with the emission requirements in the U.S. but also worldwide utilized building evaluation systems, such as LEED clearly. ✓

Building certification / Product declaration

BREEAM
The British sustainability certificate for development projects is used in 15 other countries. ✓

DGNB
Certification system of the German Sustainable Building Council and the Federal Ministry of Transport, Building and Urban Affairs. Evaluates a building's quality over its entire life cycle and is internationally applicable. ✓

LEED
Rating system of the US Green Building Council. It considers the regional and local criteria according to global standards. The use of building materials with cradle to cradle proof is evaluated with bonus points. ✓

WELL
The WELL Building Standard (WELL) focuses on health and well-being of the people within in the building. ✓

EPD
The environmental product declarations is a transparency tool for the sustainability valuation of products. It is the basis for sustainability calculations for buildings. ✓

Technical characteristics

wineo 1500	wood XS *	wood L	wood XL	stone XL | graphic XL | textile XL	fusion XL	roll chip | wood | fusion	sea **
Installation type	Glue	Glue	Glue	Glue	Glue	Glue	Glue
Utilisation classes | EN ISO 10874	23 / 34 / 43	23 / 34 / 43	23 / 34 / 43	23 / 34 / 43	23 / 34 / 43	23 / 34 / 43	23 / 34 / 43
Format	480 × 80 mm	1200 × 200 mm	1500 × 250 mm	1000 × 500 mm	1000 × 500 mm	20 × 2 m	20 × 2 m*
Product thickness	2.5 mm	2.5 mm	2.5 mm	2.5 mm	2.5 mm	2.5 mm	2.5 mm
Content / box	40 / 1.54 m²	20 / 4.80 m²	12 / 4.50 m²	10 / 5.00 m²	10 / 5.00 m²	1 / 40 m²	1 / 40 m²
Boxes / pallet	144 / 221.76 m²	60 / 288.00 m²	56 / 252.00 m²	54 / 270 m²	50 / 250 m²	6 / 240 m²	6 / 240 m²
Weight	3.40 kg / m²	3.40 kg / m²	3.40 kg / m²	3.40 kg / m²	3.40 kg / m²	3.40 kg / m²	3.20 kg / m²
Staining / chemical resistance | EN ISO 26987	very good resistance with regards to concentration and exposure time						
Reaction to fire | EN 13501-1	C_{fl} - s1	C_{fl} - s1	C_{fl} - s1	C_{fl} - s1	C_{fl} - s1	C_{fl} - s1	C_{fl} - s1
Anti slip category | DIN 51130	R9	R9	R9	R9	R9	R9	R9
Light fastness | EN ISO 105-B02	~ 7	~ 7	~ 7	~ 7	~ 7	~ 7	~ 7
Residual indentation | EN ISO 24343-1	≤ 0.10 mm	≤ 0.10 mm	≤ 0.10 mm	≤ 0.10 mm	≤ 0.10 mm	≤ 0.10 mm	≤ 0.10 mm
Dimensional stability | EN 434 / EN ISO 23999	≤ 0.15 %	≤ 0.15 %	≤ 0.15 %	≤ 0.15 %	≤ 0.15 %	≤ 0.15 %	≤ 0.15 %
Flexural behaviour | EN ISO 24344	≥ 20 mm	≥ 20 mm	≥ 20 mm	≥ 20 mm	≥ 20 mm	≥ 20 mm	≥ 20 mm
Underfloor heating	Suitable for all conventional hot water underfloor heating and electrical systems regulated up to a surface temperature of 29 °C.						
Thermal resistance | EN 12667	~ 0.01 (m²K) / W	~ 0.01 (m²K) / W	~ 0.01 (m²K) / W	~ 0.01 (m²K) / W	~ 0.01 (m²K) / W	~ 0.01 (m²K) / W	~ 0.01 (m²K) / W
Effect of a castor chair | EN 425 / ISO 4918	25000 revolutions – no damage with rollers type W						
Impact sound reduction | EN ISO 10140	~ 8 dB	~ 8 dB	~ 8 dB	~ 8 dB	~ 8 dB	~ 8 dB	~ 4 dB
Effect of a furniture leg | EN 424	Foot type 2 – no visible changes						
Anti-static properties | EN 1815	≤ 2 kV	≤ 2 kV	≤ 2 kV	≤ 2 kV	≤ 2 kV	≤ 2 kV	≤ 2 kV
Guarantee	en.wineo.de/service/guarantee						

* MOQ 50 m²

** All other standard formats in the collection are also available on request, MOQ 100 m².

Utilisation class 23:
Domestic area
with intensive usage

Utilisation class 34:
Very heavy-duty use
in the commercial sector

Utilisation class 43:
Heavy-duty use
in the light industrial sector
