

# COLORTEC STUCCO

COLOR & DESIGN INSPIRATION

## Timeless elegance

At Hammer Carpets, we fit cruise ships and five star hotels all over the world. Tailored to enhance high-level aesthetics and comforts, our textile floorings beautifully define expressive as well as subtle interior decorations.

Established in 1948, we draw on a solid experience when converging outstanding craftsmanship and cutting-edge technology in our carpet design and production. Swearing by the finest pre-dyed 80/20 wool/nylon quality, we proudly dispatch every single high-quality item from our Danish factory.

Colortec Stucco oozes exclusivity and style with the surface elegantly disrupted into a big patterned floor scape with several dimensions. Though created by the means of advanced technology, the construction features a hint of crafted randomness as if made and carved by hand. With literally all options at your disposal when it comes to patterns and colors, do feel free to play. So, be inspired from the luxurious settings in the brochure that shows you only a small glimpse of your endless possibilities.

## Bespoke design

Colortec Stucco allows any carpet  
pattern to materialize

From opulently majestic to soft organic or strictly minimalist expressions, we create entirely customized patterns suiting the particular requirements of your marine or hospitality project. Each bespoke request is different and so is our approach. While meeting your brief, our design team is your guarantee that our high standards of craftsmanship and comfort are always maintained.

## All colors possible

With Colortec Stucco, your color choice is completely free and unlimited

Whether inspired from a piece of vintage fabric, a Pantone chart or yet undecided, we can meet your color requests. In reality, you can choose from thousands of shades. Mix contrasting hues creating a vivid expression or combine your favorite shades into a delicate tone on tone ambience.

Visualization through realistic carpet prototypes and paper prints eases your decision making process.

## Visualization and wool

To ensure the best possible choice, we supply samples before bringing your unique carpet to life

Throughout the process, we create samples of the proposed design. A small prototype in real materials allows you to feel the exquisite yarn, evaluate the pattern details and sense the impressive color combinations. In addition, a large paper print is supplied to visualize the pattern scale while also giving a realistic impression of the look in full.

Once your design solution has been reached, we turn it into reality. Using only the finest 80/20 wool/nylon yarn, we fit your interior project with a high quality carpet featuring an extremely soft touch and high comfort. The natural lanoline in wool ensures a long lasting natural carpet with a superior look and feel.
